IMPORTANT Ce drepturi avem în faţa poliţiştilor când suntem opriţi în trafic. NU te lăsa

înşelat

Daca circulati regulamentar si sunteti oprit de un echipaj de politie, sau daca “v-a prins radarul” trebuie sa stiti ca aveti si drepturi nu doar obligatii.

Politistii sunt obligati sa respecte anumite reguli si sa va prezinte anumite acte atunci cand ele sunt solicitate de “cel oprit” in trafic. Neprezentarea acestora si notarea refuzului organului de a prezenta aceste acte pot duce la anularea unei eventuale amenzi.

1. Trebuie sa se prezinte (ai dreptul sa-i ceri legitimatia, sa ti-o arate. Pe care este inscris numarul sau… E foarte folositor acesta in instanta).

2. Sa-ti spuna motivul opririi. Actele se cer pe un motiv (legea nu mai permite sa se opreasca masini si apoi sa se caute motive de amenda).

3. Daca este filtru, ai dreptul sa ceri ordinul de serviciu in care trebuie sa se regaseasca data si intre ce ore au voie sa faca filtru, strazile pe care actioneaza si numele persoanelor care participa din echipaj.

4. Deci, la oprire, se comunica soferului motivul si nu poti fi sanctionat decat pe acel motiv (asta daca nu cumva ai portbagajul plin cu arme si doua cadavre legate la spate).

5. La amenda ai doua locuri unde semnezi: unul prin care recunosti fapta si al doilea ca iei la cunostinta de amenda. Deci puteti sa semnati ca luati la cunostinta de amenda…dar sa nu recunasteti fapta, si sa-l convocati la Tribunal sub asistenta juridica pe dumnealui.

6. Cel mai IMPORTANT: ori de cate ori aveti un necaz cu politia, fie noapte, fie zi, puteti sa sunati la 112 (Apel

National de Urgenta) si sa spuneti ca sunteti de echipajul cutare. In maximum 10 minute (in Capitala) apare un echipaj de la “Capitala” si astia nu se uita ca sunt colegi de-ai lor, vor face imediat un raport. Care poate fi totusi util la Tribunal.

7. Politistii de pe radare nu mai au voie sa dea filmul inapoi. Deci, daca va opresc si stiti ca nu ati comis-o prea rau, le cereti ferm sa va arate:

A. Legitimatia care atesta ca au dreptul de a lucra pe masina de radar… Sa aiba vizele la zi.
B. Copie dupa certificatul metrologic al aparatului radar cu modelul si seria aparatului.
C. Legitimatia care atesta faptul ca are dreptul de a conduce masina Ministerului de Interne… Sa fie vizata.
D. Daca mai fac scandal, le cereti sa va arate “ordinul de serviciu”… Este un fel de foaie de parcurs in care scrie unde au voie sa isi desfasoare activitatea respectiva.

Aceste acte trebuie sa fie intotdeauna asupra agentului de pe radar… Dar faptul ca-l mai intrebi de ele, de cele mai multe ori duce la un… simplu avertisment.

Hate cleaning? These time-saving tricks will be helpful next time you move. Or people are coming over.

1. Get Your Mattress Drunk

Source: lonehomeranger.com

We spend 1/3 of our lives laying on a mattress that can’t be washed. Or can it? Pour vodka into a spray bottle, spritz lightly across your mattress and leave it to air-dry. The alcohol kills odor-causing bacteria while it disinfects the mattress.

2. 5-Minute Microwave Cleaner

Source: stackingthecool

Halve a couple lemons and put in a glass dish with water. Zap until the water starts to boil. Let it sit and steam for a minute before opening. The gunk can now be wiped away with little effort. You might want to share this one with that co-worker who’s always exploding spaghetti in the break room.

3. Fool-Proof Ceiling Fan Cleaner

Got greasy fingerprints on the walls? Cover the stains with white chalk, wait a few minutes and then wipe the chalk away with a damp cloth. Works on clothes too!

7. Speed Up Drying Time

Pressed for time? Throw one clean dry towel in with wet clothes before starting the dryer. 15 minutes later, take it out. The dry towel will actually absorb some of the excess moisture floating around and speed up drying time.

22. Microfiber Couch Miracle

Source: dimitrajc

There's nothing grosser than a couch that looks like you pulled it out of the alley. Use a spray bottle to cover your couch with rubbing alcohol, then use a clean white sponge to rub the couch. Fluff the fibers with a hard bristle brush when done, and it'll look good as new.

23. Dishwasher Deep Cleaner

Source: thepinjunkie.com

Even though it cleans other things, occasionally your dishwasher needs to be cleaned as well. Run it on its hottest cycle with nothing but a container filled with white vinegar in the top rack. Then, sprinkle some baking soda on the bottom, and run it again on a short-hot cycle. Be prepared to shield your eyes from the sparkle.

24. Soap Scum Annihilator

30. No-Scrub Coffee Pot Cleaner

Source: thekitchn.com

If you’re addicted to caffeine, your coffee pot probably shows it. Fill the reservoir with equal parts white vinegar and water. Run the brew cycle halfway through, then turn off and let it sit. 31. Never Polish the Silver Again

Source: theholisticingredient.com

If you have actual silver cutlery or dishes, you know polishing it can be a pain. Line a large dish with aluminum foil, add a 1/2 cup of table salt and a 1/2 cup of baking soda. Fill the foil-lined sink with hot water, and then dump in all your silver. After a 30 minutes soak, the tarnish will be gone. Just rinse and wipe dry.

32. Vacuum Up Vomit

Source: veronicascreativespot

If your kid (or roommate) hurls on your sofa, don’t panic. Make a paste of baking soda and water, and take a spatula or spoon, generously spreading it onto the affected area (be sure to hold your breath or you might vomit too). Let it dry overnight, and you’ll be able to easily vacuum the whole thing up. Also works for urine and carpets (hooray).

33. Two-Step Foreman Grill Cleaner

Source: angsays

If you don’t clean it right away, you’ll never get all the gunk out of the tiny ridges of your Foreman grill. Try this instead: When you’re done cooking, unplug it, and press a couple of damp paper towels between the lid and the surface. The leftover heat will steam clean the grill. Wipe it dry with another paper towel and you’re done.

34. Zero-Effort Toilet Cleaner

Source: thediyguineapig

Scrubbing the toilet sucks, especially if more than one person has been using it. Instead of scrubbing, “fill a mason jar

with vinegar. Punch a couple of small holes in the metal lid with a nail. Drop that jar into your toilet’s water tank upside down. With each flush, a little vinegar will seep out of the jar and keep your toilets clean and yucky growth-free!,” explains Organic Authority. No mason jar handy? Snip off a section of one of those Mr. Clean Magic Eraser sponges and drop it right in the bowl before you go to sleep. In the morning, the ring will be gone! Just be sure to get it out before you flush.

36. Broken Glass Magnet
