

# Photography tips

Hello, my friends! My name is Oleg Samoilov! I'm from Russia and I've been doing photography since 2006. I love photography and I enjoy sharing my knowledge with the beginning photographers and colleagues.

My main project in Russia is [www.OpenSchool.biz](http://www.OpenSchool.biz). One year ago we created a collection of photo tips for beginners in photography in Russian language. It became popular and I was offered to translate these photo tips into English – I couldn't refuse.

And here is the New Year's gift for you! Photography tips in English. =)

## Aperture

## Exposure

## ISO

## Focal length

**The rule of thirds. The basics of composition.**

**Diagonals. The basics of composition.**

**Color wheel.**

**The ration of image sensor and film.**

**Camera modes.**

**How to use a reflector.**

**Portrait with blurred background.**

**Framing portraits.**

**A trick with a mirror.**

**Types of lighting**

**Flash photography**
