

40 Vintage Life Hacks from 100 Years Ago

Back in the 1900s, cigarette manufactures used to insert stiffening cards into their paper cigarette packs to add strength and help them last longer. Along the way, someone had the bright idea of printing trivia, artwork and even famous people and athletes (Honus Wagner anyone?) onto the stiffening cards.

In the early 20th Century, Gallaher's Cigarettes printed a special series of 100 "How to do it" cards that included some truly useful and helpful tips for everyday situations and problems. The entire 100 card collection is part of the New York Public Library's *George Arents Collection* and was recently digitized.

Below you will find 40 of the Sifter's personal favorites. Visit the NYPL Digital Collections to see them all.

How to do it

Nº 20

HOW TO EXTRACT A SPLINTER.

A splinter embedded in the hand is often very painful to extract. A good way to accomplish this is to fill a wide-mouthed bottle with hot water nearly to the brim, and press affected part of hand tightly against mouth of bottle. The suction will pull down the flesh, and steam will soon draw out the splinter.

N^o 10 HOW TO TREAT SPRAINS.

Elevate the injured joint and wrap in cloths wrung out in cold water. The picture shows how to keep the cloths constantly wet without having to change them. A jug of water placed higher than injured limb, and a strip of linen with one end in the jug and the other end resting upon the wrapping of sprained joint, is all that is necessary. The water will pass from jug to compress by way of linen strip. Give a rubbing with oil or liniment as sprain gets better.
