Making ice cream at home

We all know that the homemade always tastes better. Making ice cream at home is one of the easiest and most fun food projects for kids to help out with or make on their own. This is really amazing recipe and it really tastes yummy.

For making this cool ice cream you will need milk, cream, sugar, vanilla extract, salt, sprinkles if you like, a measuring bowl, measuring cups, an ice cube tray, a large freezer bag, a small plastic bag, and winter gloves. Probably most of these ingredients and supplies you already have it around the house and with all these things you can have ice cream done in less than 15 minutes. Watch the amazing tutorial and enjoy!
