

40 Vintage Life Hacks from 100 Years Ago

Back in the 1900s, cigarette manufactures used to insert stiffening cards into their paper cigarette packs to add strength and help them last longer. Along the way, someone had the bright idea of printing trivia, artwork and even famous people and athletes (Honus Wagner anyone?) onto the stiffening cards.

In the early 20th Century, Gallaher's Cigarettes printed a special series of 100 "How to do it" cards that included some truly useful and helpful tips for everyday situations and problems. The entire 100 card collection is part of the New York Public Library's *George Arents Collection* and was recently digitized.

Below you will find 40 of the Sifter's personal favorites. Visit the NYPL Digital Collections to see them all.

1. How to Extract a Splinter

Gallaher's Cigarettes.

100 IN SET

How to do it

Nº 20

HOW TO EXTRACT A SPLINTER.

A splinter embedded in the hand is often very painful to extract. A good way to accomplish this is to fill a wide-mouthed bottle with hot water nearly to the brim, and press affected part of hand tightly against mouth of bottle. The suction will pull down the flesh, and steam will soon draw out the splinter.

GALLAHER LTD.

BELFAST & LONDON

George Arents Collection, The New York Public Library

2. How to Light a Match in the Wind

100 IN SET

How to do it

Nº 62

HOW TO LIGHT A MATCH IN THE WIND.

The familiar difficulty of lighting a match in a wind can be to a great extent overcome if thin shavings are first cut on the match towards its striking end, as shown in the picture. On lighting the match, the curled strips catch fire at once; the flame is stronger, and has a better chance."

GALLAHER LTD.

BELFAST & LONDON

George Arents Collection, The New York Public Library

3. How to Tell the Points of the Compass with a Watch

100 IN SET

How to do it

Nº 72

HOW TO TELL THE POINTS OF THE COMPASS WITH A WATCH.

To determine the points of the compass by means of your watch, point the hour hand at the sun and then lay a piece of wire, or a blade of grass crosswise between the hour hand and the figure twelve. The end of the wire between the twelve and the hour hand points due south.

GALLAHER LTD.

BELFAST & LONDON

George Arents Collection, The New York Public Library

4. How To Treat Sprains

100 IN SET

How to do it

N^o 10 HOW TO TREAT SPRAINS.

Elevate the injured joint and wrap in cloths wrung out in cold water. The picture shows how to keep the cloths constantly wet without having to change them. A jug of water placed higher than injured limb, and a strip of linen with one end in the jug and the other end resting upon the wrapping of sprained joint, is all that is necessary. The water will pass from jug to compress by way of linen strip. Give a rubbing with oil or liniment as sprain gets better.

GALLAHER LTD.

BELFAST & LONDON

George Arents Collection, The New York Public Library

5. How To Make a Fire Extinguisher

100 IN SET

How to do it

Nº 13

HOW TO MAKE A FIRE EXTINGUISHER

Dissolve one pound of salt and half a pound of sal-ammoniac in two quarts of water and bottle the liquor in thin glass bottles holding about a quart each. Should a fire break out, dash one or more of the bottles into the flames, and any serious outbreak will probably be averted.

GALLAHER LTD.

BELFAST & LONDON

George Arents Collection, The New York Public Library

7. A Hint When Boiling Potatoes

100 IN SET

How to do it

Nº 12

A HINT WHEN BOILING POTATOES.

To make potatoes dry and floury when cooked, add to water when boiling them a pinch of sugar as well as salt. When potatoes are done, water should be poured away and saucepan replaced over the fire for a short time, shaking the saucepan occasionally to ensure equal dryness of potatoes.

8. How To Kill a Tree Stump

100 IN SET

How to do it

Nº 4

HOW TO KILL A TREE STUMP.

If a tree stump is not removed from the ground, it often starts sprouting, and strong undergrowth results. To prevent this, holes should be bored in top of stump, and a patch of bark cut from side and more holes bored there. A mixture of solignum and salt filled into these holes will soak through the tree stump and kill it.

GALLAHER LTD.

BELFAST & LONDON

George Arents Collection, The New York Public Library

10. How To Pull Out Long Nails

100 IN SET

How to do it

Nº 1

HOW TO PULL OUT LONG NAILS.

It is often rather difficult to pull out a long nail from wood into which it has been driven, for when drawn out a short distance as in A, there is no purchase from which to pull it further. If, however, a small block of wood be placed under the pincers, as in B, the nail can be pulled right out without difficulty.

11. How To Measure With Coins

100 IN SET

How to do it

Nº 30

HOW TO MEASURE WITH COINS.

It is sometimes useful to know that half-a-crown equals half an ounce in weight, and three pennies weigh one ounce. A half-penny measures one inch in diameter; half-crown an inch and a quarter, and a sixpence three-quarters of an inch in diameter.

Issued by

GALLAHER LTD.

BELFAST & LONDON

George Arents Collection, The New York Public Library

12. How To Detect Escaping Gas

100 IN SET

How to do it

No 34

HOW TO DETECT ESCAPING GAS.

There is always a danger in trying to locate an escape of gas with a light. The method shown in the picture, however, is free from risk and quite reliable. Paint strong soap solution on the suspected length of pipe and the gas will then cause bubbles at the escaping point, which can be dealt with at once.

28. How To Remove a Stuck Glass Stopper

100 IN SET

How to do it

Nº 40

HOW TO REMOVE GLASS STOPPER FROM BOTTLE

There are several ways of overcoming the difficulty of loosening a glass stopper that is tightly fixed in a bottle, the method shown in the picture being one of the best. Tie a piece of strong string to a firm support, twist it round the neck of the bottle outside the stopper and then quickly rub the bottle to and fro till the neck is hot. This causes the glass to expand, leaving the stopper loose.

Discursul celebru al lui Kurt Vonnegut la MIT în 1997

Acest discurs celebru a fost prezentat ca discurs de început al lui Kurt Vonnegut în fața studenților care au absolvit Institutul de Tehnologie din Massachusetts în 1997. Sunt sfaturi minunate, dar se pare că nu au fost scrise de Vonnegut. Totuși sunt sfaturi foarte bune.

„Doamnelor și domnilor absolvenți ai promoției '97:

Dacă v-aș putea da doar un sfat pentru viitor, ar fi despre crema de protecție solară. Beneficiul utilizării ei a fost dovedit de către oamenii de știință, în timp ce restul recomandărilor nu au o bază mai solidă decât propriile experiențe confuze. Aceste sfaturi vi le voi explica acum.

– Bucurați-vă de puterea și frumusețea tinereții voastre, atât timp cât viața nu îți place, ea trece. Crede-mă, peste 20 de ani te vei uita la fotografiile de acum cu un sentiment pe care, pur și simplu, în acest moment nu-l poți înțelege. Te vei gândi cât de multe oportunități au fost deschise în fața ta și cât de minunat arătai.

– Nu cântărești atât de mult precum îți pare.

– Nu-ți face griji pentru viitor! Sau, bine, fă-ți griji, dar află că sunt la fel de inutile ca și încercarea de a rezolva o ecuație de algebră utilizând guma de mestecat. Necazurile cu adevărat neplăcute din viața ta sunt cele care nu te lasă să dormi la ora 4 dimineață, într-o obișnuită zi de marți.

– Fă în fiecare zi câteva din lucrurile care te sperie.

– Cântă.

– Tratează cu blândețe inimile celorlalți oameni.

- Nu te certa cu cei care sunt indiferenți față de inima ta.
- Nu uita să te speli pe dinți.
- Nu-ți pierde timpul fiind invidios, uneori ești în față, alteori în spate. Cursa este lungă și, în cele din urmă, lupți doar cu tine însuși.
- Ține minte complimentele pe care le primești, dar uită insultele. Și dacă reușești acest lucru, spune-mi și mie cum ai făcut-o.
- Păstrează scrisorile vechi de dragoste, aruncă extractele bancare vechi.
- Întinde-ți periodic corpul.
- Nu te simți vinovat dacă nu știi ce vrei să faci cu viața ta.
- Cei mai interesanți oameni dintre cei pe care îi cunosc, la 22 de ani habar nu aveau cum vor să-și trăiască viața, iar unii dintre cei mai interesanți oameni pe care îi cunosc nu știu nici la 40 de ani ce vor de la viață.
- Consumă calciu. Ai grijă de genunchii tăi, le vei duce lipsa când se vor îmbolnăvi.
- Poate te vei căsători, poate că nu. Poate vei avea copii, poate nu. Poate vei divorța la 40 de ani, dar poate vei dansa fericit la cea de-a 75-a aniversare a căsniciei tale. Orice-ai face, nu te lăuda prea tare, dar nici nu te certa. Alegerea ta, ca și a celorlalți, este la jumătate.
- Bucură-te de corpul tău, folosește-l cum poți și nu te teme de ce cred alții despre asta. Corpul – cel mai frumos instrument pe care îl vei avea vreodată.
- Dansează, chiar dacă unicul loc în care o poți face este apartamentul tău.

- Și, te rog, nu citi reviste despre viața frumoasă, doar te vor face să te simți dezgustător.
- Fii mulțumit de frații și surorile tale. Ei sunt cea mai bună legătură cu trecutul și cei, care, cel mai probabil vor fi alături de tine în viitor.
- Înțelege că prietenii vin și pleacă, dar sunt câțiva valoroși pe care trebuie să îi păstrezi.
- Depune toate eforturile pentru a depăși granițele geografice și ale vieții, pentru că atunci când vei fi mai în vârstă vei avea cea mai mare nevoie de oamenii pe care îi cunoșteai când erai mic.
- Locuiește o perioadă într-un megapolis, dar părăsește-l înainte de a te transforma într-o persoană dură. Locuiește pe o insulă, dar pleacă de acolo înainte de a deveni o persoană slabă de fire. Și, în general, călătorește.
- Acceptă unele adevăruri inevitabile: prețurile vor crește, politicienii își vor înșela mereu soțiile. Și tu vei îmbătrâni și, când o vei face, îți vei imagina că atunci când erai tânăr, prețurile erau rezonabile, politicienii erau nobili și copiii își respectau bunicii.
- Apropo, respectă-ți bunicii, nu știi niciodată când vor pleca pentru totdeauna.
- Nu te baza pe faptul că cineva îți va asigura traiul. Poate ai propriile fonduri sau poate ai un soț/soție bogată, dar nu ești niciodată sigur de momentul în care el/ea poate pleca.
- Nu experimenta foarte mult cu părul tău, pentru că în momentul în care vei avea 40 de ani, va arăta ca la 85.
- Cu toții vom pleca într-o zi, dar este important să rezistăm până la final, crezând în ceva. Este cea mai mare provocare, pentru că ni se pare că nu există ceva în care merită cu adevărat să credem.

-Credeti-ma, in legatura cu crema de protectie solara”
